PROPERTY ADJOINS THE FA-MOUS APRIL FOOL.

Frank Knox Is President of the Company, and Prominent Capitalists Are Interested—John Beck Negotiating a Half-million As-

The Company, and Frontinent Capitalists Are Interested—John Beck
Megotating a Haif-million Asphaltum Deal—Omaha Lease—in the Company of the C

shares, the Canadian Copper company whole.

The lowa company, which was incorporated some two months are, is developing its property through a numel and shaft. The latter is being sunk on the vein and is going down at the rate of three feet a day. The time was in a distance of seventy feet when Mr. Mason left and he estimates that 190 feet more will have to be run to cut the vein, which shows twenty inches of mineral-bearing quarks in the lotton of the tunnel. The lowa company is now expending about \$400 a month in developments and Mr. Mason is so impressed with the showing while is being made that he proposes to give

being made that he proposes to give he property his personal attention for ome time to come. He will return to he mine Tuessiay next.

In speaking of the district in general, fr. Mason says it is a pity that more iterest is not shown in the opportunies there afforded for the legitimate inestment of capital. In his opinion no istrict in Utsh has a surface showing the state of the second of the second of the legitimate inestment of capital. In his opinion no istrict in Utsh has a surface showing

property is being worked by a tunner which has reached the length of 809 feet. It is the intention, Mr. Jennings mays, to drive the funnel at least 100 feet further or until the ledge is cut, which is supposed to be within that

distance.

Mr. Jennings has had the ore which he brought up from his Grand Gulch property in Arizona, assayed. A general average taken from across the bottom of the four shafts gave 23 4-10 per cent copper, while a picked sample of dirst-class ore ran 55 8-10 per cent copper. Just what disposition will be made of the Grand Gulch has not been opper. Just what disposition was be nade of the Grand Guich has not been legisled upon, but in all probability rigorous steps will be taken to open up the ground and make other improve-ments during the present year.

OMAHA CASE SETTLED.

Stock In Dispute Divided Between the Contending Parties.

messars. Petterman. McNamee and blooks are founded by the secretary and treasurer of the April Fool company of the Magnolia property, while Mr. McNamee the parties entered upon a stipulation of the Magnolia property, while Mr. McNamee the parties entered upon a stipulation of the Magnolia property, while Mr. McNamee the parties entered upon a stipulation of the Magnolia property, while Mr. McNamee the stipulation Moreonal treasurer of the April Fool company of the Magnolia property, while Mr. McNamee the parties entered upon a stipulation of the Magnolia property, while Mr. McNamee the parties entered upon a stipulation of the Magnolia property, while Mr. McNamee the parties entered upon a stipulation Moreonal Magnolia property, while Mr. McNamee and the new company's tortical the members of the company are all well known capitalists, prominent in the mining world.

The company's property is a straight gold proposition and takes in practically all of the mineral zone lying norther of the April Fool, and competent experts the parties of the same and the company's holdings, declare it is the coming big mine of the district.

A horther Tintic Date:

A norther Tintic property has been obtained. It is proposed to continue the work of cross-cutting the ledge from the miner work of cross-cutting the ledge from the more indicated and the company are all the company's holdings, declare it is the coming by mine of the district.

A harge amount of development work has already been done, and gold values, ranging from 85 to 230, have been obtained. It is proposed to continue the work of cross-cutting the ledge from the miner work of cross-cutting the ledge from the miner of the district.

Four Aces Sends a Shipment of High-grade Ore to Market.

SOUTH SWANSEA SHAFT

NEW ONE HAS REACHED SIXTY FEET DEPTH.

Drifting at the Picnic-Contractor Begin Sinking the Seaswan Shaft 100 Feet Deeper-Strike Reported

to have some significance, on account of the vagueness and mystery surrounding the reports, and it was with some difficulty that your correspondent obtained any reliable information pertaining thereto. After having talked with several mer who are working in the lattle Chief, the writer interviewed in any and all knowledge of a strike, but being pressed for facts and accuracy, produced some of the ore, which, he said came from the showing first correlation in the lattle Chief, the writer of the ore, which, he said came from the showing first correlation in his possession other than for copper values, which indicate very satisfactory results.

Something over two weeks ago The Herald predicted, from the general character and condition of the ground, that in all likelihood an ore showing to have some significance, on account of the vagueness and mystery sur-

character and condition of the ground, that in all likelihood an ore showing would soon be made in the Little Chief, and the fulfillment, therefore, is no surprise. The ground lies north and east of the Snowthake, Joins the Earle and Elue Beil territory, and, consequently, in keeping with hig disclosements in that immediate locality, has a good license to be in line with them all. The ore has the appearance of being much the same in character as that found in the Earle-Blue Bird, Centennial-Eureka territory, which it naturally would do, coming unquestionably from the same chute or zone. The men employed at the mine regard the strike as being important.

Public School System.

The report recommends the establishment in the island of the public school system of the United States.

Recommendation is made that there shall be a complete separation of church and state and all property.

Recommendation is made for a thorough reform of the judicial system of the listendary of the listendary of the listendary into districts similar to these counties in the states of the United States is suggested. The commissioners recognize vested rights in the island, and recommend that they be protected. Another American method referred to is that for the recording of deeds, the present system being very cumbersome and expensive. 1.95 2.85 "Our 1-year-old daughter had been troubled with constipation from her earliest infancy. Of late she had a rash on her hands and orms. She has taken three bottles of Hood's Sarsaparilla and the constipation is entirely cured and the rash has disappeared." Isaac N. Covert, Durango, Colo. The Property Is Said to be Worth

property deeded to that institution by Mrs. Stanford is worth \$35,000,000, and could be converted into \$15,000,000, cash. The gift to the trustees of 200,000 shares of Southern Pacific stock will not affect the management of the railroad. The Searles and Crocker interests in the Southern Pacific company are pledged to protect the interests of the Stanford university. It is understood that all of Mrs. Stanford's remaining property will, in course of time, become part of the university endowment. Her health is poor, and on Wednesday next she will start for Europe, where she will remain for several months. Salt Lake Exchange Sales.
